PROFESSIONAL EXPERIENCE

Software Development Intern

07 May 2025 – Present

Kodnest Technologies, Bengaluru, Karnataka, India

Gained practical exposure during internship at KodNest by working on real projects utilizing Java, MySQL, Frontend Technology, and Manual Testing. Learned from industry experts, improving coding, database management, and software quality assurance skills while adapting to professional software development standards.

PROJECTS

Agriculture Equipment Rental System

16 Jun 2025 - 26 Jul 2025

Personal Team Project

Worked effectively in a team to build a rental price prediction system utilizing XGBoost, where I contributed to both the machine learning pipeline and front-end development. Processed and analyzed .csv datasets to train the model, resulting in improved accessibility and cost savings for farmers.

Crime Management System

06 Feb 2025 - 18 Apr 2025

College

Contributed to a collaborative project to build a Crime Management System with PHP, MySQL, and XAMPP, handling both front-end development and data integration. Implemented user authentication, role-based access control, and CRUD functionalities, streamlining the record-keeping of crime reports and user information.

CineWave (HTML, CSS, JavaScript)

04 Aug 2025 - 01 Sep 2025

Personal Project

Created a Netflix-inspired streaming platform website with advanced functionalities using HTML, CSS, and JavaScript. Engineered core features like video streaming, user authentication, and content recommendation algorithms, ensuring responsive interface across devices and mirroring the professional quality seen in leading entertainment applications.
